Visit Hattiesburg

Poster Series and T-shirt

Brief: Create a series of three travel posters advertising one aspect of Hattiesburg, Mississippi and include a cohesive T-shirt design that encompasses all three designs.

This project won a Local Gold Addy and Top 10 in the National Poster Show 2022.

to top ↑

What Big Teeth

TV Intro Motion Graphics

Brief: Create a TV introduction in Premier Pro for a book that does not currently have a movie or TV adaptation. The book chosen was “What Big Teeth” by Rose Szabo.

This project won a Local Silver Addy and a District Gold Addy.

Elizabeth Short
Model & Actress

Detective,
I need to know
you are as serious
about this case as the
rest of us are. Are you
truly coming to help?

- yes, just me
- yes, plus one more
- unfortunately not

Please Respond

Elizabeth Short
January 15, 1947

Memorial
Biltmore Hotel
7:00 p.m.
January 15, 1947

Elizabeth Short was an amazing woman and
a woman in the Los Angeles area. To all who
knew her, she was beautiful, confident, and
friendly. She was the girl of the party. But that
was not what made her so special. It was her
heart that made her so special. She had a
kindness and a generosity that was rare.
She was a woman who was truly a woman.
We will miss her, but we will remember her.
We will remember her for the love she gave
to those who loved her. She was a
woman.

January 15, 1949

Elizabeth Short was an aspiring model and actress in the Los Angeles area. To all who knew her, she was beautiful, confident, and headstrong, the life of the party. But that life was cut short by an unknown suspect in the most brutal murder the fuzz have ever seen. We encourage you to join us for a memorial in honor of the Black Dahlia. We hope this will encourage anyone with evidence to come forward and to get her case out there if you think who don't know about it. See you soon.

Crawl: A Herpetological Journal

Trade Journal Publication

Brief: Develop a publication for a trade of your choice that is at least 40 pages in length with advertisements. A standard should be developed for a featured article layouts and column layouts. The trade chosen for this project was herpetology, or the study of amphibians and reptiles.

Europe's Taste for Frog Legs Obscures the 'Extreme Cruelty' of the Trade

Isabel Nuwer

As a young woman in France, I remember the first time I ate frog legs. They were delicious, but I was also struck by the way the chef talked about the frogs. He spoke of them as if they were just another ingredient, not a living creature. This is the reality of the frog leg trade in Europe, where the demand for this delicacy has led to the near-extinction of several species.

Conservationists have long warned that the trade in frog legs is unsustainable. In 2011, the European Commission banned the trade in frog legs from the EU, but the ban was largely ignored. In 2020, the European Commission issued a new ban, but it was also largely ignored. The trade in frog legs continues to thrive, and the demand for this delicacy is growing.

The frog leg trade has been harmful to the environment. The frogs are often caught in large numbers, and the trade has led to the near-extinction of several species. The trade has also led to the loss of biodiversity and the degradation of ecosystems.

The frog leg trade has also led to the loss of biodiversity and the degradation of ecosystems. The frogs are often caught in large numbers, and the trade has led to the near-extinction of several species. The trade has also led to the loss of biodiversity and the degradation of ecosystems.

Flying Snakes Help Scientists Design New Robots

American Institute of Physics

At a conference in France, I was talking to a scientist who was designing robots that could fly like snakes. He was talking about the way snakes move, and how that could be used to design robots that could fly like snakes.

Robots have been designed in many ways that mimic animal movements, such as walking and swimming. Scientists are now creating flying robots that mimic the way snakes move.

The flying snake is a unique creature that can glide through the air. Scientists are studying the way snakes move in order to design robots that can fly like snakes.

Gulf Blue Oyster Stout

Beer Label and Launch Party Collateral

Brief: Create a label design in a similar style as those found in Chandeleur Brewery for Gulf Blue's Oyster Stout. Gulf Blue's branding identity should be used, as well as coastal iconography to tie the brand's mission into the graphics. For the launch party, collateral items such as t-shirts and hats, should reflect a similar design as the beer label for advertising purposes.

Join us at
CHANDELEUR
ISLAND
BREWING COMPANY
GULFPORT, MS
As we launch our

Friday, September 30th
4pm - 6pm

It's Happy Hour
2711 14th Street,
Gulfport, MS 39501

There will be a food truck and Chandy Beer for purchase.
Come see, touch, and feel some of the tech out of the blue...
